Our natural tapestry, the skin, can be torn apart by disease, and we can suffer from horrendous physical and emotional trauma. This book gathers together a number of stories of people with skin diseases, and its organizing principle is each patient 's story and the search for the fundamental humanity, compassion, and empathy for the person with skin and systemic issues. One central element of the book is the need to dignify a person 's life in the face of disease—something that is often not their fault.

This collection of Chekhov's finest early writing reveals a young writer mastering the art of the short story. 'The Steppe', which established his reputation, is the unforgettable tale of a boy's journey to a new school in Kiev, travelling through majestic landscapes towards an unknown destiny. 'Gusev' depicts an ocean voyage, where the sea takes on a terrifying, primeval power; 'The Kiss' portrays a shy soldier's failed romantic encounter; and in 'The Duel' two men's enmity ends in farce. Haunting and highly atmospheric, all the stories in this volume show a writer emerging from the shadow of his masters - Tolstoy, Turgenev and Gogol - and discovering his own voice. They also illustrate Chekhov's genius for evoking the natural world and exploring inner lives.
