no time are those lessons more important than in the heat of combat with lives on the line. The key is in preparation before a conflict. Battle Leadership helps you be prepared by teaching such essential skills as: How to handle different personalities under extreme stress. How to prepare your troops psychologically for combat. Insight into proven battlefield tactics (even if some of those tactics are only still relevant for their historical insights). How to instill confidence in those following you. While military tactics change, the wisdom of true leadership invariably holds. These lessons can even be applied to running a business, non-profit or government department, but they are crucial to every military commander or aspiring officer. Find out why when lives are on the line, generations have turned to and continue to learn from Battle Leadership.

Extension Of Operations-Some Tactical Actions-Our Performance-Epilogue

WARS CHANGE, WARRIORS DON'T We are all warriors. Each of us struggles every day to define and defend our sense of purpose and integrity, to justify our existence on the planet and to understand, if only within our own hearts, who we are and what we believe in. Do we fight by a code? If so, what is it? What is the Warrior Ethos? Where did it come from? What form does it take today? How do we (and how can we) use it and be true to it in our internal and external lives? The Warrior Ethos is intended not only for men and women in uniform, but artists, entrepreneurs and other warriors in other walks of life. The book examines the evolution of the warrior code of honor and "mental toughness." It goes back to the ancient Spartans and Athenians, to Caesar's Romans, Alexander's Macedonians and the Persians of Cyrus the Great (not excluding the Garden of Eden and the primitive hunting band). Sources include Herodotus, Thucydides, Plutarch, Xenophon, Vegetius, Arrian and Curtius--and on down to Gen. George Patton, Field Marshal Erwin Rommel, and Israeli Minister of Defense, Moshe Dayan.
