This saga of a son of the working class who grows into a piano prodigy is “hypnotically readable . . . The best story I know of in a long, long time” (Vanity Fair). As a boy, Claude Rawlings looks up through the grated window of his basement apartment to watch the world go by. Poor, lonely, supported by a taxi-driver mother whose eccentricities spin more and more out of control, he faces the terrible task of growing up on the margins of life, destined to be a spectator of that great world always hurrying out of reach. But there is an out-of-tune piano in the small apartment, and in unlocking the secrets of its keys, as if by magic, Claude discovers himself. He is a musical prodigy. Body & Soul is the story of a young man whose life is transformed by a gift. The gift is not without price—the work is relentless, the teachers exacting—but the reward is a journey that takes him to the drawing rooms of the rich and powerful, private schools, a gilt-edged marriage, and Carnegie Hall. Claude moves through this life as if he were playing a difficult composition, swept up in its drama and tension, surprised by its grace notes. Music, here, becomes a character in its own right, equaled in strength only by the music of Frank Conroy’s own unmistakable and true voice. Bristling with character and invention, Body & Soul is Dickensian in its range and richness. This is a novel with all the emotional appeal and moral gravity of a classic bildungsroman, but with a tone as contemporary as a jazz riff—an unforgettable achievement by one of the great writers of our time.

The noted past-life therapist and author of Many Lives, Many Masters discusses his work with future life progression, drawing on dozens of case histories to explain how the choices that are made in one's present life impact the quality of future lives and revealing the benefits of progression therapy as a healing tool for present-life conditions. 100,000 first printing.

The publication of 'Animal Rights and Souls in the 18th Century' will be welcomed by everyone interested in the development of the modern animal liberation movement, as well as by those who simply want to savour the work of enlightenment thinkers pushing back the boundaries of both science and ethics. At last these long out-of-print texts are again available to be read and enjoyed - and what texts they are! Gems like Bougeant's witty reductio of the Christian view of animals are included together with path-breaking works of ethics such as Primatt's A Dissertation on the Duty of Mercy and Sin of Cruelty to Brute Animals. There are works I have never seen before, including the remarkable Cry of Nature by the Scottish revolutionary Jacobin, John Oswald. In this set, everyone will find something novel, delightful and truly enlightening. - Peter Singer The discussion of animal rights and the moral status of animals, so prevalent in the late twentieth century, has its roots in the mid to late eighteenth century. Some of the themes we consider of recent invention - the legal standing of animals, the ethical status of vegetarians, cruelty towards animals, ultimately resulting in cruelty to humans - are of long standing. But in the eighteenth-century literature they are interconnected with theological issues surrounding animal souls, the birth of the life sciences, the great chain of being and other peculiarly eighteenth-century problems. This collection explores the exciting early discussions of moral theories concerning animals, placing them within their historical and social context. It reveals that issues such as vivisection, animal souls and vegetarianism were very much live philosophical subjects 200 years ago. The six volumes reprinted here includes complete works and edited extracts from such key eighteenth-century thinkers as Oswald, Primatt, Smellie, Monboddo and Jenyns. Many of the materials are extremely rare and never previously reprinted. The collection, edited with a new introduction and bio-bibliography by Aaron V. Garrett provides valuable original source material to supplement contemporary discussions of animal rights. --18th-century material on the theme of animal rights and practical ethics --an important supplement to contemporary animal rights discussions --provides a broader account of early discussions of the 'science of human nature' through animals --widens our understanding of 18th-century ethics through an important area of practical ethics --includes many scarce texts, most of which have never been reprinted before

The images in this book each represent one of the 12 Spiritual Powers. Each drawing is accompanied by a page of information about the attributes of that power, the disciple associated with it, the color, the body energy point, and any angels, flowers or herbs associated with the power. Consciously using this information allows the essence of each power to become more real, and a powerful tool in our daily lives.

Get a detailed look at the Thai sex/gender system—through analysis of the personal stories from transgendered youth in Thailand The Thai term sao braphet song (a “second type of woman”) describes males who reject the gender of masculinity for femininity. Male Bodies, Women's Souls: Personal Narratives of Thailand's Transgendered Youth uses the narrative method, stories in the words of these “second type of women” to analyze these transgendered experiences. This previously ignored perspective of the Thai sex/gender system gained through this theoretical and methodological approach offers students and general readers a rich, more readily accessible foundation of knowledge about gendered subjectivity and sex/gender systems. Male Bodies, Women's Souls: Personal Narratives of Thailand's Transgendered Youth features in-depth, autobiographical life histories from individual Thai transgendered youth. Life stories, told in the participants' own words, provides an engaging, at times touching, always insightful look at Thai culture's sex/gender system. The authors then expertly analyze the narratives to illuminate common themes and constructions within this group, allowing an opportunity for contrast and discussion on transgender experiences in other nations. Male Bodies, Women's Souls: Personal Narratives of Thailand's Transgendered Youth analyzes the major themes in the stories, including: identities definitions and descriptive labels etiologies of sao braphet song-ness the notion of acceptance narrator motivations for participating in the project Male Bodies, Women's Souls: Personal Narratives of Thailand's Transgendered Youth is illuminating, reflective reading for educators, undergraduate students, graduate students, researchers, or anyone interested in discovering more about transgenderism in a specific cultural context.

What are humans? What makes us who we are? Many think that we are just complicated machines, or animals that are different from machines only by being conscious. In Are We Bodies or Souls? Richard Swinburne comes to the defence of the soul and presents new philosophical arguments that are supported by modern neuroscience. When scientific advances enable neuroscientists to transplant a part of brain into a new body, he reasons, no matter how much we can find out about their brain activity or conscious experiences we will never know whether the resulting person is the same as before or somebody entirely new. Swinburne thus argues that we are immaterial souls sustained in existence by our brains. Sensations, thoughts, and intentions are conscious events in our souls that cause events in our brains. While scientists might discover some of the laws of nature that determine conscious events and brain events, each person's soul is an individual thing and this is what ultimately makes us who we are.

Killian knows all about vampires and aliens. They're not real. But when a handsome swimmer climbs into her storm-tossed boat an hour from her summer destination, the worlds of fantasy and reality suddenly collide... Cuttylea Island has no mall, no social scene, and no action. But it does have a mysterious stone tower, ageless islanders, and a secret as astonishing as a mermaid's tale... Before the summer is through, Killian will find the truth of her family's past...and the role she is destined to play in a centuries-old curse.

Rebecca has been captured and awakens alone in the dark, not knowing where she is. She can feel that Llyr is alive, but cannot contact him through the soul link. Chained to a wall and without magic, she must find a way to survive and escape. Llyr was defeated by his brother and witnessed the fall of the tower on Avalon. Being separated from Rebecca has created a problem: the soul link is draining his body of all strength. Despite not being able to stand on his own, he's determined to return to his world and save Rebecca from the Archwizard. Without Havaar to guide him, he must rely on the ghosts of Havaar's school to find a way home.
