Learn to connect pharmacology concepts with their impact on patient care! Designed to accompany Lehne's Pharmacology for Nursing Care, 10th Edition, this robust workbook — study guide features critical thinking study questions, case studies, and detailed patient teaching scenarios. The 10th edition includes an increased emphasis on patient safety, with added questions to help you learn to spot and remediate medication errors. Plus, an emphasis on priority nursing care with NCLEX® examination-style review questions prepares you for success on the exam. NCLEX®-style alternate format questions, including prioritization questions, bolster your readiness for the NCLEX Exam while supporting review of core pharmacology content. Reinforcement of key information equips you for success on the NCLEX Examination and for patient safety (a QSEN core competency) in clinical practice. Three-part chapter organization separates content into study questions, NCLEX review and application questions, and dosage calculation questions. Detailed rationales for all prioritization questions are included in the answer key and encompass explanations for both correct and incorrect responses. Prioritization and delegation questions highlighted by special icons equip you to succeed on the NCLEX Exam and in the fast-paced clinical environment. Focus on implications of drugs and drug classes for patient care provides practice application of pharmacology content to the clinical setting. Application - and analysis-level questions highlighted by special icons help you integrate other nursing knowledge such as developmental considerations, laboratory values, and symptoms of adverse effects. Succinct question scenarios eliminate information that is not essential to answering the questions. Answer key is now included in the back of the printed study guide. **NEW!** Updated content has been thoroughly revised to ensure that the information is completely up-to-date and consistent with the textbook. **NEW!** Increased emphasis on patient safety features questions on safe patient care that challenge you to select appropriate actions to prevent or remediate medication errors.

Study Guide to Substance Abuse Treatment is a question-and-answer companion that allows you to evaluate your mastery of the subject matter as you progress through The American Psychiatric Publishing Textbook of Substance Abuse Treatment, Fourth Edition. The Study Guide is made up of 292 questions divided into 49 individual quizzes of 4-9 questions each that correspond to chapters in the Textbook. Questions are followed by an Answer Guide that references relevant text (including the page number) in the Textbook to allow quick access to needed information. Each answer is accompanied by a discussion that not only addresses the correct response but also explains why other responses are not correct. The Study Guide's companion, the fourth edition of The American Psychiatric Publishing Textbook of Substance Abuse Treatment has been fully updated to present the most current scientific and clinical information on a wide range of substance use disorders, from tobacco and alcohol to methamphetamine and "club drug" abuse. The text offers a comprehensive view of the basic science and psychology underlying addiction as well as extensive coverage of all treatment approaches and specialty topics. Highlights of this new edition include chapters on the biology and clinical management for each of the drug categories; new material on the role of buprenorphine in treating opioid addiction; extensive coverage of cognitive-behavioral therapy, motivational enhancement, and contingency management; and new research on the role of 12-step programs in addiction treatment.

This Study Guide to accompany the Seventh Edition of Maternal & Child Health Nursing, by Adele Pillitteri, is designed to help students practice and retain the knowledge from the textbook, and it is structured to integrate that knowledge and give students a basis for applying it in their nursing practice.

This study tool provides a wealth of activities to reinforce content from the text. The activities accommodate many learning styles and promote the reader's ability to apply information in the patient care setting. Applying Your Knowledge exercises challenge readers to develop critical thinking skills. Mastering the Information exercises expand the reader's understanding of drug therapy and develop insight about client teaching needs. NCLEX-style multiple-choice and alternate-format questions offer opportunities to practice test-taking skills.
