In this exceptional study, Christian Fuchs discusses how the internet has transformed the lives of human beings and social relationships in contemporary society. By outlining a social theory of the internet and the information society, he demonstrates how the ecological, economic, political, and cultural systems of contemporary society have been transformed by new ICTs. Fuchs highlights how new forms of cooperation and competition are advanced and supported by the internet in subsystems of society and also discusses opportunities and risks of the information society.

Contested Waters provides an in-depth analysis of trans-boundary water conflict involving the Indus Basin in Pakistan. The book focuses on both national scale and local scale case studies to illustrate how these water conflicts are both discursively and materially driven by human institutions and politics. Through case studies of controversy over large dams, local flooding and irrigation methods, Daanish Mustafa highlights the various deeply political and institutional factors driving water conflict – specifically the disparity between national scale strategies of water politics and local scale water politics – and calls for engagement with water conflict in political terms.

This introduction to global environmental politics examines why environmental challenges occur and how we can effectively respond to them.

Many people who have been very successful throughout their careers suddenly stumble when they assume a leadership position. The knowledge, skills, and work habits that enabled them to succeed in their previous jobs may not apply to leading. Although confident in his own field, the new leader may feel unprepared to handle typical management issues of under-performers, budgets, and departmental strife. Having always been a top performer, the new leader may be frustrated at suddenly having her success depend on the actions of her staff. The Emerging Leader is a valuable primer for the manager who wants to develop effective teamwork. Dean Tjosvold and Mary M. Tjosvold offer an action-oriented, research-based plan for learning to analyze situations,

promote cooperation, develop productive relationships, and learn from mistakes - essential for success as a leader. They provide practical on-the-job advice, brief sections on psychology and organizational behavior that explain the theory behind their advice, and an extended workplace example that traces a new manager as he masters his first position as a team leader. Readers will learn how to handle common management hurdles such as budget cuts, terminations, conflict within and among departments, reorganizations, and cooperation with bosses and peers. Whether one is leading office workers, sales representatives, health care workers, lawyers, or any other type of team, *The Emerging Leader* is a must read for beginning the climb up the corporate ladder.

his book gives an understanding of the origins and nature of conflict, and enables the reader to find solutions through open communication and mutual trust and respect. It offers a simple structure which will allow all parties to reach the magic of win-win.

This striking example of Malaguzzi's work and philosophy-in-practice has not previously been available to the scholarly community or to the public interested in the history of the Reggio Emilia educational experience. Its round-table discussions and dialogues reveal valuable insights into the ways young children can be encouraged towards cooperative learning experiences, with implications far beyond the particular curriculum at hand. The

editors' commitment to progressive education and to the rights and potential of all children worldwide has led them to share this rich record of the experience, so that current readers and those yet to come can glimpse the brilliant minds at work during this era (1990), and as it were, "listen in" on the fascinating discussions that were held on the topic of "cooperation."

In this thought-provoking, passionately written book, Bernard Mayer—an internationally acclaimed leader in the field—dares practitioners to ask the hard questions about alternative dispute resolution. What's wrong with conflict resolution? Why aren't more individuals and organizations using conflict resolution when they have a problem? Why doesn't the public know more about it? What are the limits of conflict resolution? When does conflict resolution work and when does it not? Offering a committed practitioner's critique of the profession of mediation, arbitration, and alternative dispute resolution, *Beyond Neutrality* focuses on the current crisis in the field of conflict resolution and offers a pragmatic response.
