Robert Peurifoy was a giant in the field of construction engineering and authored several classic books during his lifetime. Construction Planning, Equipment, and Methods, sixth edition, deals with a diverse set of constructionplanning scenarios. Clifford Schexnayder has improved on a classic treatment of the topic by updating, improving, and adding material important to instructors in this area.This sixth edition of Construction Planning, Equipment, and Methods has sharpened its focus on planning. New methods and data are incorporated throughout with many contemporary examples.

Robert Peurifoy was a giant in the field of construction engineering and authored several classic books during his lifetime. Construction Planning, Equipment, and Methods, sixth edition, deals with a diverse set of construction planning scenarios. Clifford Schexnayder has improved on a classic treatment of the topic by updating, improving, and adding material important to instructors in this area. This sixth edition of Construction Planning, Equipment, and Methods has sharpened in focus to concentrate on planning. New methods and data are incorporated throughout with many contemporary examples.

The Seventh Edition of Construction Planning, Equipment, and Methods, follows in the footsteps of the previous editions by providing the reader with the fundamentals of machine utilization and production estimating in a logical, simple, and concise format. Our text features expanded coverage of building in today's global environment. Hundreds of photos and illustrations have been added to the seventh edition to make this dynamic text even more accessible to both students and professionals. In addition, since technology is constantly evolving, this text provides an understanding of machine capabilities and how to properly apply those capabilities to construction challenges. The media package includes: Web-based exercises have been added to many chapters to draw attention to the expanding volume of information available over the Internet. The computer monitor icon in the text margin will direct you to the text website (<http://www.mhhe.com/engcs/civil/peurifoy>). In addition, extensive web resources are provided at the end of every text chapter.

Fully updated coverage of construction planning techniques and equipment technology Construction Planning, Equipment and Methods, Ninth Edition, follows in the footsteps of previous editions by laying out the fundamentals of machine utilization and production estimating in a logical, simple, and concise format. The book discusses the latest technologies and capabilities and offers real-world applications. Examples and illustrations showcase the latest equipment models and end-of-chapter summaries and homework problems reinforce salient points. You will explore construction economics, earthwork, and soil and rock properties. Safety procedures and financial considerations are thoroughly explained in this comprehensive guide. Coverage includes: • The history of construction equipment • Safety • Planning equipment utilization • Equipment economics • Operating costs • Rent and lease considerations • Planning for earthwork construction • Soil and rock • Compaction specifications • Seismic and deflection testing • Soil processing • Current models of dozers, excavators, scrapers, and cranes • And much more

Never HIGHLIGHT a Book Again! Virtually all of the testable terms, concepts, persons, places, and events from the textbook are included. Cram101 Just the FACTS101 studyguides give all of the outlines, highlights, notes, and quizzes for your textbook with optional online comprehensive practice tests. Only Cram101 is Textbook Specific. Accompanys: 9780072321760 .

It includes hundreds of tips, pictures, diagrams and tables that every excavation contractor and supervisor can use This revised edition explains how to handle all types of excavation, grading, paving, pipeline and compaction jobs -- whether it's a highway, subdivision, commercial, or trenching job. This edition has been completely rewritten to cover new materials, equipment and techniques.It includes hundreds of tips, pictures, diagrams and tables.
