Warren County authorities say evidence found at the scene of a house fire on Friday shows the deceased man found inside shot himself. The Warren County Sheriff's Office and the Fire Marshal's are now investigating the incident at the house in the 700 block of Northern Spy Drive, Linden, as a possible arson and suicide, according to a media release issued Monday afternoon.

Authorities investigate fire, death as arson, suicide ...

In the natural course of combustion the fire destroys evidence and deteriorates the potential crime scene as it feeds off additional fuels within the structure or vehicle. In some cases, there is hardly a scene to investigate! Realistically, there is nothing positive that comes from the "black hole" of a total fire loss.

Preserving the arson scene - Carolina Fire Rescue EMS Journal

Evidence Collection & Analysis In the collection of evidence during the investigation of a fire scene, the same rigorous preservation and anti-contamination methods used in crime scene investigation should be employed. In cases of suspected arson, samples are collected from the incident scene for the analysis of accelerants.

Fire Investigation – The Forensics Library

They should secure the fire scene and identify potential evidence, take preliminary steps to preserve it, and notify appropriate authorities about its existence. First responders should: Observe and mentally note evidence at the scene, such as: Fire patterns (including multiple fire locations). Burn injuries to victims and fire patterns on clothing.

A Guide for Investigating Fire and Arson | National ...

Fire and arson investigators examine the physical attributes of a fire scene and identify and collect physical evidence from the scene. This evidence is then analyzed to help determine if the cause of the fire was accidental or deliberate. During the scene examination, investigators may find evidence such as accelerants, tampered utilities, and specific burn patterns, which may indicate criminal activity.
