Principals of Paleontology. Principles of Paleontology (Third Edition) Reviewed by Michael J. Benton. Michael Foote and Arnold I. Miller. W.H. Freeman,New York, 2007. ISBN-13: 978-0-7167-0613-7 \$93.95; £29.99 hardback. Palaeontology has a good press and a bad press. Every week, stimulated by an article in Natureor Science, reports appear around the world of a new species of dinosaur, a remarkable fossil from China with hair or feathers (or both), or a new early human specimen that ...

Principals of Paleontology - Palaeo-Electronica

Paleontology and stratigraphy. During the 17th century the guiding principles of paleontology and historical geology began to emerge in the work of a few individuals. Nicolaus Steno, a Danish scientist and theologian, presented carefully reasoned arguments favouring the organic origin of what are now called fossils. Also, he elucidated three principles that made possible the reconstruction of certain kinds of geologic events in a chronological order.

Students should be able to interpret changes in the composition and diversity of life (fossils) through geologic time and space as a consequence of evolution, ecology and biogeography. Students should develop the skills to recognize, collect and document fossil specimens in the field and appropriate procedures and techniques for preparing, handling and study.

Principles of Paleontology - SERC

In my view, this would be an excellent textbook for an advanced paleontology techniques/topics course at a university, such as for third year and fourth year undergraduate students or first year graduate students. Disclaimer: I am a UChicago graduate student; the school which both Foote and Miller graduated from and which Foote is a professor at.

Amazon.com: Customer reviews: Principles of Paleontology

Paleontology is the study of the history of life on Earth as based on fossils. Fossils are the remains of plants, animals, fungi, bacteria, and single-celled living things that have been replaced by rock material or impressions of organisms preserved in rock.
