Coach Rick Torbett from Better Basketball has developed an innovative offensive system that is a perfect choice as a program offense. The beauty of the Read and React offense is that it is taught in layers. This means that young players can play out of a few simple concepts which will build and become more complex as they gain experience.

Those events ripped my life apart. Playing basketball for Baylor University was the realization of a lifelong dream. But I could have never foreseen the devastation that would rock our foundation. Coach Scott Drew took over a broken program and his vision of "hope in the future" was hard to swallow. Yet, in the midst of so much pain, a miracle happened. Our brotherhood of "Leftovers" banded together. We were considered the underdogs, yet that didn't deter our desire to play. As co-captain of that team, I tell a story of tragedy, personal struggle, anger, shaken faith and perseverance. Surprisingly, I learned that we inspired our university, community and nation. The Leftovers is the story behind that story.

Train like the World Champions! Over the past few years, a new trend has become ever more prominent in the soccer world: passing often, fast, and including all players in the game. Combining this with their own personal style, we have seen teams reach new heights of success from FC Barcelona to Bayern Munich and Borussia Dortmund and, most recently, the German National Team at the 2014 World Cup in Brazil. But what does it take to learn this 'art' of passing? What are the methodological and technical requirements for becoming the new Schweinsteiger, Messi, or Neuer? In this book, the only of its kind, two German League certified coaches have created the ultimate guide to passing. Using the "Hyballa-te Poel-Passing-Puzzle," they present every type of pass there is in modern soccer, with lots of drills for each type. From the goalkeeper to the center forward, everyone can learn passing with these exercises.

"The strong take from the weak, but the smart take from the strong." So said Pete Carril's father, a Spanish immigrant who worked for thirty-nine years in a Bethlehem, Pennsylvania, steel mill. His son stood only five-foot-six but nonetheless became an All-State basketball player in high school, a Little All-American in college, and a highly successful coach. After twenty-nine years as Princeton University's basketball coach, he became an assistant coach with the NBA's Sacramento Kings. In 1997 he was inducted into the Naismith Memorial Basketball Hall of Fame. Coach Carril inspired his teams with his own strength of character and drive to win, and he demonstrated time and again how a smart and dedicated team could compete successfully against bigger programs and faster, stronger, more athletic players. His teams won thirteen conference championships, made eleven NCAA Tournament appearances, and led the nation in defense fourteen times. Throughout his reflections on a lifetime spent on the basketball court and the bench, Carril demonstrates deep respect for the contest, his empathy and engagement with the players, humility with his own achievements, a pragmatic vision of discipline and fundamentals, and an enduring joy in the game. This is an inspiring and wonderful book, even for those who never made a basket.

In this inspirational yet practical book, the man Parade called “the most important coach in America,” subject of the national bestseller Season of Life, Joe Ehrmann, describes his coaching philosophy and explains how sports can transform lives at every level of play, from the earliest years to professional sports. Coaches have a tremendous platform, says Joe Ehrmann, a former Syracuse University All-American and NFL star. Perhaps second only to parents, coaches can impact young people as no one else can. But most coaches fail to do the teaching, mentoring, even life-saving intervention that their platform provides. Too many are transactional coaches; they focus solely on winning and meeting their personal needs. Some coaches, however, use their platform. They teach the Xs and Os, but also teach the Ys of life. They help young people grow into responsible adults; they leave a lasting legacy. These are the transformational coaches. These coaches change lives, and they also change society by helping to develop healthy men and women. InSideOut Coaching explains how to become a transformational coach. Coaches first have to “go inside” and articulate their reasons for coaching. Only those who have taken the InSideOut journey can become transformational. Joe Ehrmann provides examples of coaches in his life who took this journey and taught him how to find something bigger than himself in sports. He describes his own InSideOut experience, starting with the death of his beloved brother, which helped him understand how sports could transcend the playing field. He gives coaches the information and the tools they need to become transformational. Joe Ehrmann has taken his message about the extraordinary power of sports all over the country. It has been warmly endorsed by NFL head coaches, athletic directors at major universities, high school head coaches, even business groups and community organizations. Now any parent-coach or school or community coach can read Ehrmann’s message and learn how to make sports a life-changing experience.
