~~**The Hidden Connections: A Science for Sustainable Living**~~

The hidden connections : A science for sustainable living .p. xix My extension of the systems approach to the social domain explicitly includes the material world. This is unusual, because traditionally social scientists have not been very interested in the world of matter. Our academic disciplines have been organized in such a way that the natural sciences deal with material structures while the social sciences deal with social structures, which are understood to be, essentially, rules of ...
