This book does not deserve the self-title "The Ultimate Do-It-Yourself Manual" by any stretch of the imagination. I read it in one sitting largely because I already knew most of the information in it from my time spent idly Googling the subject. It is, at best, a conglomeration of information that is readily found (for FREE) spread throughout ...

The Ultimate do-it-yourselfSmartphone Projector. Smartphone Projector. There are plenty of guides around the web showing you how to build a projector for your smartphone, usually housing the phone inside a shoe box with a magnifying glass at one end in order to focus the image onto a wall. They're cheap and easy to do, and the resulting images are viewable, if a somewhat fuzzy and dim.

We pulled out all the stops when it came to a case for our Ultimate Do-It-Yourself System. We chose the Silverstone T307-S case, which sells for about \$365 US, depending on your source. This is quite expensive for a case, but it is worth the investment. First, the thing is huge. It's larger than any tower case we've ever tried.
